

aare::FileInterface

```
classDiagram
    class aare__FileInterface["aare::FileInterface"]
    class aare__NumpyFile["aare::NumpyFile"]
    class aare__RawFile["aare::RawFile"]
    aare__NumpyFile --|> aare__FileInterface
    aare__RawFile --|> aare__FileInterface
```

The diagram illustrates a class hierarchy. At the top is the base class 'aare::FileInterface'. Below it are two subclasses, 'aare::NumpyFile' on the left and 'aare::RawFile' on the right. A horizontal line connects the two subclasses, with a vertical line and an upward-pointing arrow from the center of this line to the bottom of the 'aare::FileInterface' box, indicating that both subclasses inherit from the base class.
